Dear board members,

My name is Bert Godding. I am a Platte County resident, homeowner, and business owner. I am writing to find out when, if ever, you are going to allow Platte County to get back to normal. As of today, there is no new order to supersede the current order which expires June 1<sup>st</sup>. The COVID plan on the website is vague and open-ended. What is the next stage? When can we expect our businesses and restaurants to be able to reopen? You are killing small businesses with these restrictions.

I don't expect that you will even take the time to read these emails. I see that the earliest of your terms expires in 2023, so you don't much care about re-election concerns right now. But the people who voted you in are the same people who are losing their livelihoods under this draconian plan.

Open up Platte County!

Sincerely,

Bert Godding, Kansas City
